Don't get... Wet

Aquapacs

Water is the enemy of all electronic devices. Our normal leather cases help protect radios from rain and snow but for extreme weather and underwater environments they need the extra help of a fully waterproof Aquapac.

Available in two sizes Aquapacs feature very easy loading and suit all the radios in our RangeFinder series plus most radios from our Classics series, please call us on 01873 852742 for details. Radios can be used whilst inside the Aquapac.
